Experience

TechPro Software Solution

React Developer

June 2023 – Present

- Our current project is a site that will be very useful to people, this project will be released to the public soon.
- Developed and maintained web applications using React, ensuring high-quality code and user-friendly interfaces.
- Collaborated with cross-functional teams to understand project requirements and implement effective solutions.
- Utilized React components, state management libraries (such as Redux), and modern JavaScript frameworks to build scalable and responsive user interfaces.
- Implemented best practices for code organization, performance optimization, and application security.
- Worked with RESTful APIs to fetch and update data, ensuring seamless integration between the front-end and back-end systems.
- Contributed to the development process through code reviews, testing, and debugging to ensure software reliability.

Termez State University (ATM)

Frontend Developer

April 2022 – November 2022

- I made the complete Frontend part of **www.c1plus.uz** site
- I used technologies like Html Css Javascript.
- In the process of doing this project, I learned skills such as working with hosting and deploying the site.
- I am working on site optimization and Redux toolkit integration.
- I mainly develop authorization components.
